Pinoydental

Dental Wizard

DENTAL WIZARD® multimedia patient education software is designed to help you create an even more successful practice by informing and educating your patients.

The 3-D animated tutorials explain dental procedures clearly, consistently, and in nontechnical language to help your patients understand and accept your suggested treatment plan.

These compelling presentations enhance the professionalism of your practice, save you and your staff's time, and standardize the information you want your patients to receive.

Available in English and Spanish on DVD-R, on your practice server, and on the Web-link, online delivery through your practice web site.

For a FREE Trial, click the image on the left.
